

We are the
MUMC Green
Team and we
want to invite
you to
Go Green!

PLACE
STAMP
HERE

“Going Green” is not simply doing one or two things differently to conserve natural resources or the environment. For many of us it is a dramatic change in our attitude regarding our precious planet and a significant change in our life-style.

One way that we all can begin to make that change is by enrolling in “renewable energy”. Sign up for “renewable electric energy” and then talk to your friends, neighbors and relatives about the benefits of “renewable energy”. Let our common goal be “25% by ‘25”. That is, by 2025, 25% of Wisconsin’s electricity will be produced by renewable energy sources.

**TOGETHER, WE CAN MAKE
THAT HAPPEN!**

Go Green!

Mequon
United Methodist Church
invites you to
Go Green with Renewables,
a program of our Green Team
through grants from the
United Methodist Foundation.

Making God's Love Real

Go Green with renewables!

Are you passionate about keeping our environment healthy for all of us and our future generations? We CAN do something about it. Each of us can enroll in a “renewable energy” program through WE Energies or Arcadia Power. For a small monthly investment, we can have the amount of electricity that we consume each month produced from renewable energy sources such as wind, solar, hydro-electric and biomass.

How it began...

When Wisconsin achieved its goal of 10% renewable sources of energy producing the state’s electricity by 2015, the Wisconsin Public Service Commission estimated that we prevented 12 million tons of carbon dioxide from being released into the atmosphere. This was a significant “first step”; but it simply didn’t go far enough to protect the environment which nourishes and sustains us all.

What can I do?

~~ Enroll in a program through either WE Energies or Arcadia Power. Both companies offer several options so that you can choose one that works best for you. Here is their contact information:

WE Energies: 800-242-9137; or
www.we-energies.com

Arcadia Power: 866-526-0083; or
www.arcadiapower.com

~ Replace one of your old light bulbs with the energy efficient one included in your bag.

~ Conserve water in your everyday household uses.

~ Reduce the amount you drive.

~ Plant trees, shrubs, flowers, etc. to produce oxygen.

~ Go to Focus On Energy website to get your free, energy-saving gift.

After you have enrolled in a renewable energy program, PLEASE let us know by clicking the counter on our website’s home page — www.mequonumc.org!

MUMC Community Gardens

In Spring 2018 the Green Team of Mequon United Methodist Church will be dedicating their new Community Garden location. MUMC would like to invite you to register for one of our Community Garden plots at the rear of our parking lot. The plots are approximately 16’ X 16’ and can be halved if you prefer a smaller plot. There is a small fee, but scholarships are available.

What do I get when I sign up?

- A plot for your use during the season.
- Access to a water tank. This water is **not** safe for drinking, but is fine for your plants.
- Frequent emails with gardening information from our Green Team.
- A supportive environment for learning about gardening.

How much does it cost?

For 2018 the rental fees are:
1/2 plot = \$10.00; 1 full = \$20.00.

If you have never gardened before, we highly recommend that you rent only one plot or share with another gardener.
